

**THIS PATIENT HAS SEVERE CHRONIC NEUTROPENIA (SCN)
FEBRILE NEUTROPENIA IS A MEDICAL EMERGENCY**

Please follow these recommended guidelines:

- Triage patient at high priority
- Order CBC with differential (STAT) and a blood culture
- Fever $\geq 38.5^{\circ}\text{C}/101.3^{\circ}\text{F}$ begin empirical antibiotics STAT (no rectal temps)
- Consult with hematology

Treat aggressively. Broad spectrum antibiotic, administered IV, is recommended. Do not delay antibiotics while awaiting lab results/investigations. For more information, or to reach a SCN specialist, call 1.800.726.4463.
